Nip It In The Bud.

Someone suggested holding a stock fair in Lancaster. The Record tried to learn who that someone was, but he had flown to parts unknown. For pity's sake, fight off a stock fair.

Madison Institute.

We call attention to the advertisement of Madison Institute elsewhere in this issue of The Record. This is one of the best schools in the South and it will be to your interest to send for a catalogue before deciding upon where to send your daughter.

Gov. Bradley Declines.

Louisville Times:—Former Gov. W. O. Bradley, who was solicited to take the presidency of the American Trust and Investment Company, a corporation which certain capitalists had agreed to organize if he would accept the place, has formally declined the offer. The only reason given by Gov. Bradley for his decision is that he prefers to engage in the practice of law.

The Harvest is On.

The farmers are up to their ears in harvest this week, the weather having been unusually good for the work. In the early spring it was feared the crop would not turn out well, but the yield is far ahead of expectations and almost a full crop will be made. The recent high winds have caused some trouble by blowing down the wheat, but little or none has had to be abandoned. Some trouble has been had in securing hands, but this has not delayed work. The yield in Garrard last year was enormous, being about the best ever raised in the county.

Dr. Hobson will be here Monday.

We buy old gold and silver. Thompson the Jeweler. 2c

Miss Sallie Tillett is making good headway with her new building on Danville street.

This is the ger-lorious Fourth, and many a 2x4 wind-jammer is torturing the people over this beautiful land of ours.

Minors Mill to Start.

We will be prepared to start our mills in a few days. We are prepared to store wheat. See us about storage. J. S. Minor & Son.

Col. Collier Gets Appointment.

A Washington dispatch says Gen. D. R. Collier, of this city, has been appointed a storekeeper and gauger for this district. He has not yet been assigned to duty, as the collector does this.

"Save Supper For Ten!"

Mr. Bastin, manager of the local telephone exchange, asks The Record to say that when as many as ten people go to Crab Orchard Springs for supper, it will cost nothing to telephone Mr. Willis to save supper in case they don't arrive in time. Telephone him any way, if you go with a party.

City Council.

The City Council met Monday in regular session. A few little bills were allowed, new pavements ordered put down in front of several pieces of property on Stanford street, some crossings made and several other small matters looked after. A settlement was made with last year's tax collector. The marshal reported a number of dogs killed, and he was instructed to keep up the good work.

Please Report.

We have had some complaints from subscribers that The Record does not reach them. We pay a stiff price to have these papers delivered, and if your paper is not in the office, please report the date, time you asked for it, etc., and we will see if Uncle Sam can not learn the cause of the trouble. The papers are started from this office on time, and if you don't receive it, the trouble is in the mail service. There's a way to remedy this, and we will see that it is done.

A Madison County Product.

A Madison county man is advertising for a stray mule, described as "23 hands high." Some of the candidates in the recent primary up there must have electioneered with rank stuff.

Help a Good Cause.

The ladies of the Methodist church will have an exchange in the Stormes building, adjoining Miss Sallie Tillett's store, every Saturday afternoon for the entire summer. They will sell and serve light breads, meats, salads, chickens, ices, cakes, etc. Proceeds for parsonage. Come around and purchase your suppers and Sunday meals and thus help a worthy cause.

Quarterly Meeting.

The last quarterly meeting of the conference year will be held at the Methodist church Saturday and Sunday. Rev. Jno. R. Deering, of Lexington, will be present and conduct all the services. Quarterly Conference and first sermon Saturday 8 p. m., sermon Communion Sunday 11 a. m. Sermon Sunday 8 p. m. Dr. Deering is a fine preacher and a large crowd is expected to hear him.

Garrard Co. Sunday School Convention. There will be held in Lancaster, July 18th, in the Presbyterian church, a County Sunday School Convention. It is hoped that there will be delegates from each Sunday School in the county. Mr. Fox, our State Secretary and other workers will be with us and an enjoyable day is expected. It will be only one day's session, morning session beginning about 9:30 o'clock. Our town people are earnestly requested to lend their presence and assistance to make the Convention a success. This is a work in which all the churches are interested, so let all work together for good results. 2c

Florist Moves Away.

After remaining in Lancaster for several years, and building up a nice business as a florist, Mr. Heberling has been compelled to remove his green houses on account of lack of water. He had two immense houses in which were growing a lovely lot of plants, etc., but having to carry the water was too much work and expense and he decided to move to Danville. This is a move that will be regretted by many of our citizens, but we may all set it down in our memorandum books that no enterprises will locate in Lancaster until she shakes off all the hayseed and has up-to-date improvements.

About That Snake.

Cynthiana Democrat:—Shortly after the Louisville Business Men's train left Richmond, last week, the representative of the Courier-Journal thought he saw a rattle snake coiled about his legs, and let out a scream that was plainly heard in Lancaster. The rest of the excursionists of course fell in with the suggestion readily and believed they saw it too, causing intense excitement and confusion. The most remarkable circumstance, however, is the case of Louis Landram, who up to the time the Lancaster Record went to press, still thought he was seeing the snake and printed a long story about it. That Richmond whisky must have been a hot number.

SURVEYORS IN TOWN.

Have Completed Three Lines to Curt Robinson's and Now Working Into Town.

The corps of Southern railway engineers arrived in town Tuesday evening and have pitched their camp in the Graded School yard, which makes an ideal location, as it is quiet, has plenty of shade and water and all the convenience the party could desire. They have completed three lines from the river to Curt Robinson's and are now working from that point to town. The camp will remain here until they have worked four or five miles south of town. They have succeeded in finding a splendid grade and are well pleased so far. They have saved a mile and a half in distance and struck several fine farms in such manner as to cause little or no damage. Our people will see that the gentlemen live on the fat of the land while in our midst.

See the pretty dainties at Joseph's.

Chicken feed for sale at Marksbury & Son's.

All kind of machinery repaired at Conn's.

The soda fountains are reaping a harvest.

Harvest hands are scarce. Its next to impossible to get Rastus to work in hot weather.

We have the old reliable Mitchell farm wagon we are offering at a bargain. Romans & Elmore.

We have just received a large order of extra fine buggy harness. We can save you from two to five dollars on anything in this line. Romans & Elmore.

The Logan Dry Goods Co., had several thousand quarter-sheet bills printed at this office yesterday, and will let the people for miles around know of the great bargains they are offering.

Kicked by a Horse.

While harnessing a horse yesterday, John Moss, eldest son of W. B. Moss, was kicked in the abdomen, and it was thought for a time the injury would prove fatal. He is resting easy now, and it is believed he will recover.

Confederate Veterans' Day.

During the Elks' Fair to be held in Lexington in August, there will be a Confederate Veterans' Day, at which a reunion of civil war veterans from all parts of the State will be held. All Confederate veterans and their wives will be admitted free, and there will be an old-fashioned burgoon for them.

Sizes It Up.

The great trouble with many young men is they are not fitted for anything, says the Win Hester Democrat. They want to spend the first 30 years of their life being funny and having a good time, then drop into a good position with a fat salary. Because old business men will not put them at once in these good positions they settle down to dry goods box growers, criticising the government and condemning the rich.

Gospel Meetings.

The Gospel meetings conducted at the Herrington school-house by Rev. Jas. E. Wolford, closed on last Saturday night. The interest in the services continued unabated through a period of nearly five weeks. The meetings were a blessing to the entire religious community, while fourteen professed to having a change of heart. These were baptised into the fellowship of Lancaster Baptist church Sunday afternoon, in the presence of a large concourse of people. Two others were received into the church by letter, making a total of sixteen accessions.

The Stage of Life.

The above is the title of a forthcoming novel from the publishing house of The Robert Clarke Company, Cincinnati. It is a story of particular interest to Kentuckians and of very special interest to the people here. Many of the scenes and incidents of the book are drawn from places and persons not unfamiliar to the people of Somerset. The author, Miss Elinetta Harrison, a resident of Somerset, known and loved by the people. The Stage of Life will appear in within a few weeks and will be delivered first to those who have made advanced subscriptions. The price is \$1.50.

Back in the Harness.

THE RECORD had about concluded that Bro. W. P. Walton had given it the shake, as not a single copy of his new paper, the Harrodsburg Democrat, reached our desk until Saturday. The paper presented such an improved appearance that we scarcely recognized it. A new head has been installed, the matter thoroughly classified, the ads nicely distributed and well set, while the editorial column is chuck full of such bright, up-to-the-minute matter as only Col. Walton's bright pen can produce. The Democrat will shortly blossom into a semi-weekly, and several other improvements be made on it. By the way, we have noticed no opposition being given Col. Walton's candidacy for railroad commissioner, which fact goes to show that his party appreciates the years of hard labor he has put in for its advancement and welfare.

To Sunday School Superintendents of Garrard County.

Letters have been sent to every Sunday School in the county requesting a report of School, contributions and the appointing of delegates to the County Sunday School Convention to be held in Lancaster, July 18, in the Presbyterian church. There will be two sessions, morning and afternoon, morning session about 9:30 o'clock. This is a union Convention, all the churches being interested in it. Mr. Fox, our State Secretary and other workers will be with us on that day. Responses to letters are coming in slowly, will the Sunday School Superintendents send in the names of delegates at once so entertainment can be provided, also send in reports and contributions. Respectfully, R. G. Ward, Pres't, Stella O'Neal Hubble, Co. Secy.

Improvements at Cemetery.

The trustees of the Lancaster Cemetery recently received eight car loads of screenings from a quarry in the mountains. This is being placed on the driveways and is making a great improvement. This "screenings" comes from the rock crushers and is cemented thoroughly, making a road almost as hard as iron. It is not very expensive. The trustees are under obligations to Sup't. Hood, of the K. C., for valuable assistance in securing the metal. It is their intention to put in concrete walks, as they get the money, thus doing the work and never feeling the expense. Lancaster has the prettiest Cemetery in the state, and when this is done, it will far excel any in the south. The trustees are men of business ability, and have been working constantly for several years in bringing about this end.

CENTRAL RECORD.

An Independent, Local Newspaper.
ISSUED WEEKLY.
LOUIS LANDRAM, Editor and Publisher.
Lancaster, Ky. July 4, 1901.

The Leader Printing Co., has been dissolved and the Lexington Leader becomes the individual property of Mr. Sam. J. Roberts, who has been president of the company and editor of the paper since it was founded some thirteen years ago. We remember of hearing Mr. Roberts talk with a prominent republican about starting the Leader, and he was told that the venture was a great risk, that Lexington was the hot bed of democracy and a republican paper would last there about as long as a snow ball in the lower region, or words to that effect. "Well," replied the ambitious young gentleman, "I believe that a clean, honest newspaper can be made to pay, and I am going to make the start." He did so, and it was not six months before the Leader had as large a circulation as any paper in Central Kentucky, either republican or democratic, and Mr. Roberts one of the most popular and highly respected citizens of the state. The success of the Leader has been phenomenal, and goes to show what energy, brains and square dealing will accomplish. The Record congratulates Mr. Roberts, and wishes him continued success.

The Jefferson county grand jury said it "believed gambling was going on in Louisville, but the police were doing all in their power to suppress it." The officers may be doing this, but there are so many men who make their living by gambling that the police have a task they will never be able to carry to a successful end. Even the little towns have their "graffs" whose sole occupation is to watch for green-horns to rope into their clutches and rob, and the cities are, as a matter of course, infested on a larger scale. A drunkard will sometimes sober up and go to work, but a gambler never turns from the error of his way.

In his speech at the Good Roads Convention, Gov. Beckham said "We have too much politics; let us have more industry and improvement." The young governor struck the keynote in this. Kentucky has more natural resources than any of the central states, and the only reason they are not developed is that the people are constantly wrought up over some political question, and taking up time discussing matters that don't amount to a hill of beans. If the Good Roads Convention could have arranged to put the politicians to driving carts on the new roads, it would have done the state a valuable service, indeed.

In a last effort to save her trifling husband's neck from the hangman's halter, Mrs. Ruthven, of Cleveland, O., said it was she who committed the murder and not her husband who was doomed to die. "Twice ever thus a noble woman will never desert her husband, no matter how depraved he may become. Had the poor woman been in trouble, it is a safe surmise that he would have let her hoe her own row from the outset. The other day we heard a fellow say that nine out of every ten men ought to be hung on general principles, and we see wherein he is about right.

A dig down in our old oyster can, where clippings are stored, brought out the following. We don't know who wrote it, but whoever he was described heaven on earth as near as it is possible to have it. Listen:

A man is never poor when he has good health, the ability to eat three square meals a day, and is the owner of a home, ever so humble, and out of debt. If in that home there be those who love him and look for his coming when the toll of the day is ended, then is he rich—possessor of treasures which the millionaire cannot purchase if he be denied them.

An exchange jumps up to announce the startling fact that the hair of the average unmarried man grows nine inches every year. As the married man's comes out as fast as it appears on his cranium, we don't see how a comparison can be made to show any-

thing remarkable about the nine inch growth.

At St. Louis, Sunday, Rev. James N. Crutcher appeared in his pulpit clad in a shirt waist. He advised the men to leave their coats at home and the ladies to discard their hats. Bro. Crutcher should be given a vote of thanks. It's awful trying these hot days to have to sleep with a coat on.

A COMPANY with \$2,000,000 capital was incorporated in Cuba to raise cane. That's more money than they need. We have frequently raised Cain here in Lancaster on less money than that, though the trimmings in the police court next morning were a little stiff.

EDITOR GREEN R. KELLER, of the Carlisle Mercury, has the sympathy of his many friends among the newspaper craft upon the death of his wife. He is a great favorite among the newspaper men, and very justly so. May the good Lord console him in this dark hour of distress.

THE Kentucky Distillers are figuring on curtailing the production of whisky in Kentucky this year, and will make only the small quantity of 25,000,000 gallons. By watering her freely, the boys may be able to make it hold out.

A BULLET fired at a St. Louis negro split on his head. The would-be murderer had doubtless never heard that it is almost impossible to get anything into a negro's head.

Cows at the Buffalo Exposition are milked three times daily. They ought to kick on this outrage.

The large tobacco barn of Mr. John Murray, burned down Sunday night, with 40,000 lbs of tobacco, and six acres of broom corn. It was the largest barn in the country. It was the work of an incendiary.

The directors met with cashier G. W. Kemper, and opened the bank for business Monday. So it is no trouble to get all the money you want in Paint Lick. So, Mr. Editor, if you should happen to get a little cramped law on me.

Mr. T. S. Burnam received a telegram from his partner at Berry, Mr. I. C. Buckner, that he had sold their flouring mill and gave possession Monday morning. We are glad to know that Mr. Rucker and family will come back to Paint Lick.

Judge N. A. Turpin, of Richmond, completed his contract on the bank Saturday evening, and left with the good will of everybody here. He worked a force of hands and they were the quietest lot of men we ever saw together, there was not a loud word spoken during their stay here. Mr. Turpin made friends of everybody and if the Paint Lick people had a vote in Madison county, Mr. Turpin would be the next county judge by a large majority.

Miss Maggie Hackley, of Georgetown College spent several days here with friends. Mr. A. K. Lackey, who has been in Colorado for several years for his health, returned home a few days ago looking much improved. Mrs. G. W. Kemper has been very sick. Born to the wife of J. V. Bees in this locality are doing almost no good this year at either swarming or making honey. J. S. Rutherford reports that some of his are starving to death.

Uncle Bill Lornan, who has lived here most of his life, is 88 years old, has never used spectacles and lacks only one of having a full set of teeth. Since he was 80 years old he has walked the road from here to Illinois several times, and can yet walk farther in a day than many men not half so old.

Some three weeks ago Squire J. A. Baker went to Frankfort as a juror of the Federal Court. He, very naturally, felt highly honored and, as it was his first trip to the capital, he also enjoyed it immensely. Imagine his chagrin, however, when only last week one of his sons, living in the West, wrote to another member of the family here, saying, "I learned that Pa had to go to Frankfort. I wonder what trade they will put him at."

Wheat harvesting is in order. Mr. J. M. Walker and Hiram, purchased new binders and putting in good time.

Mr. and Mrs. J. W. Teater, Mr. T. Hill and family, will go to Dripping Springs in the early future to recuperate.

There is quite a demand for work hands in this part of the country. It seems they can't be obtained for love or money.

Miss Minnie Broadus began her school with bright prospects for a successful term. The school also began at this place.

The annual fish dinner at the river was well attended, and several large fish were cooked and eaten on the grounds. Mrs. Nathan Bogle and children from here were among the numerous guests.

Mrs. John Francis, of Stanford, Mrs. J. A. Doty, of your town, were guests of relatives here last week. Mr. Alex Simpson is reported quite sick at this time. Mrs. Byron Myers, from High Bridge, was the guest of her daughter Mrs. Will Simpson. Misses Ida and Willie Pierce have returned from a pleasant visit to their cousins, Misses Sanders, at Stone. They attended a family party while there. Miss Sallie B. Ray is in Crab Orchard visiting friends, also for her health. Mrs. Kinnard Warner, who has been given Chapel school, will begin July 8th. Messrs W. B. Ray and family, Robert Long and wife, will go to Mallory Springs soon. Willie Noel and family were visitors at Squire Noel's Saturday and Sunday. Johnnie Bogle is convalescent after several days sickness, caused from getting too warm, while at work. Mrs. Herod Ray and Georgia Ray, visited Mrs. Wm. Wall this week.

The piles that annoy you so will be quickly and permanently healed if you use DeWitt's Witch Hazel Salve. Beware of worthless counterfeits. F. P. Frisbie.

Our Government is just completing a wirewound gun, 4 1/2 inch calibre, that will hurl a steel projectile weighing fifty-five pounds nearly twenty-four miles, the projectile rising ten miles above the earth in the highest part of its flight. A similar gun of 10-inch would shoot thirty-five miles and over the moon—almost.

Dr. R. Goldstein, of Louisville, will be at

Lancaster, July 28, 1901,

for one day only at the New Garrard Hotel and will fit glasses to the eyes of all who need them. He has made the study of optics a specialty, and anyone in need of glasses can not do better than to give him a call. He will be found at his room at the New Garrard Hotel.

Parents of children whose eyes are in any way affected should take them to Dr. Goldstein and have them examined. Too much care can not be taken in this particular, as any neglect of the parents may lead to most serious consequences in after life. If the eyes of a child need glasses the doctor can determine it and adjust such glasses as will be most apt to preserve and increase their strength.

This gentleman has been giving satisfaction for many years, and we recommend him as worthy the patronage of the public. Those suffering with their eyes should call on him and if they don't get relief it will not cost them a cent. He can adjust to any eyes and any age.

A good glass rightly adjusted is a luxury to a person with failing sight they can not afford to do without. A glass imperfectly adjusted is worse than no glass.

The Jolly Elks.

The swellest social function given in Richmond lately was the reception at the Elks lodge rooms in that city, Wednesday evening. As has been stated in THE RECORD, the lodge has the finest quarters in central Kentucky, and the special decorations for this occasion made them a thing of beauty.

Indeed, Richmond people have the reputation for dispensing hospitality with a lavish hand, and they certainly maintained it on this occasion. The reception and entertainment committee worked unceasingly for the pleasure of the visitors, and they certainly succeeded in making all feel that it was good to be there. Through the gab of Sam Jones, and a number of other fellows who have died at the Elks' ballot box, the impression had gone out that the lodge was only kept up in order to furnish excuses for its members to get away from home at night, drink, gamble and elevate ladies generally, but those present the other night had their eyes opened considerably and came away with a different idea of the motives of the organization. The Elks, like the Masons, never proclaim their good deeds from the house-tops, consequently the thousands of charitable deeds are not paraded before the public in order to secure members and win the applause of outsiders. The order is composed of the very best men in the land, and one must bring good credentials to pass its portals. "Many are called but few are chosen."

The elite of Madison was on hand in full force, the immense rooms being crowded during the entire evening. Prof. Mitchell's orchestra, stationed in a convenient nook, made sweet melody during the time, the young folk tripped the light fantastic, the older ones enjoyed social chat, and the hours flew by like so many minutes. The weather was intensely warm, but numerous electric fans kept the rooms pleasant and added comfort to the surging mass of happy people. It was a grand success, and the visitors all left with the firm belief that the Elks are a pretty good set of fellows to tie to.

Does It Pay to Buy Cheap.

A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer and more regular climate? Yes, if possible; if not possible for you, then in either case take the only remedy that has been introduced in all civilized countries with success in severe throat and lung troubles, "Boschee's German Syrup." It not only heals and stimulates the tissues to destroy the germ disease, but allays inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. Recommended many years by all druggists in the world. Get Green's Prize Almanac at Stormes Drug store.

Pity the poor young man who parts his hair in the middle—he has to do it to prevent his mind from becoming unbalanced.

Question Answered.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers' and grandmothers' never thought of using anything else for indigestion or biliousness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. Get Green's Prize Almanac at Stormes Drug Store.

Use Your Eyes and Ears.

A court recently decided that "ordinary care requires that a person in the full enjoyment of the faculties of hearing and seeing, before attempting to pass over a railroad should use them for the purpose of discovering and avoiding danger from an approaching train; and an omission to do so, without reasonable excuse therefor, is negligence which will defeat an action by such person to recover damages for an injury to which such negligence contributed."

Good Advice to Girls who Travel.

The young girl who is traveling by herself should seek information from the train people rather than from her companions on the train. No girl in traveling should make confidants of strangers of either sex, disclose her name, her destination or her family affairs, or make acquaintances on the road. She may, however, show kind attention to a mother traveling with little children, amuse a wearied little one, and politely thank any one who does her an unobtrusive kindness.—Margaret E. Sangster, in The Ladies' Home Journal for July.

Camp Meeting at Preachersville.

Beginning July 2nd to 14th, Rev. H. C. Morrison, one of Kentucky's greatest pulpits orators and Rev. George W. Young, the orator and temperance lecturer will do the preaching assisted by a number of other Ministers. The singing will be conducted by Prof. George E. Kersey, of Wilmore, Ky., a splendid leader of song and Miss Lizzie Victor, of Middlesboro, Ky., a charming singer with a number of other good singers to assist. This will be the greatest camp meeting ever held in this section of the country, and you are cordially invited to attend. Come to do good and to get good.

H. B. Cockrill, J. L. Hutchins, Wm. Sprinkles.

Don't be a stumbling Block.

An exchange truthfully says the men of worth to a town or community are those who forget their own selfish ends, long enough, and are liberal enough in their ideas to encourage every public enterprise; to push all projects calculated to build up the town and enhance its importance. The enterprise and push of a town or community constitute the foundation of its permanent success. A man may as well prepare for its funeral as to become indifferent to the enterprise in its midst. Men who come to a town to make their future home, who cannot look far enough before them to see that money placed judiciously in the public enterprise will be increased a hundred fold upon the appreciation of their property, are to be pitied. They are of the class who are ready to owe all they have to some ones building enterprise but are not willing to do anything themselves.

The Best Remedy for Stomach and Bowel Troubles.

"I have been in the drug business for twenty years and have sold most all of the proprietary medicines of any note. Among the entire list I have never found anything to equal Chamberlain's Colic, Cholera and Diarrhoea Remedy for all stomach and bowel troubles," says O. W. Wakefield, of Columbus, Ga. "This remedy cured two severe cases of cholera morbus in my family and I have recommended and sold hundreds of bottles of it to my customers to their entire satisfaction. It affords a quick and sure cure in a pleasant form." For sale by R. E. McRoberts, druggist.

Kentucky Telephone Association.

The deliberation in the meeting of the Kentucky Telephone Association, which took place in Lexington on June 27th and 28th, brought out facts bearing on the independent movement in our State that are quite a revelation to the people. Seven years ago there was not an independent company in Kentucky, to-day there are seventy or more. Five years ago the capital invested was not more than two thousand dollars, to-day it is two million, and the larger portion of this belongs to citizens of this commonwealth. Five years ago these companies owned probably 100 phones, they have 15,000 now, with which they are giving excellent service, though of course not all of their lines are perfect by any means, but the majority are in good shape and it is one of the purposes of the association to see that faulty lines are improved or know the reason why. The old companies have had the advantage of the independents to the present in long distance work but that will be a thing of the past before another year rolls around. Two new long distance companies have been formed in Kentucky, backed by ample capital to push through several copper metallic trunk lines from Louisville, Newport, Maysville, and Lexington, to the various portions of the State. The line of most importance to this part is the one that will run from Lexington through Nicholasville, Lancaster, Crab Orchard, Mt. Vernon, London, Corbin, Williamsburg and Jellico on to Knoxville. By these lines telephone users will be enabled to talk direct to Cleveland and all over Ohio and Kentucky into Pennsylvania, West Virginia, Indiana, Illinois, Knoxville and East Tennessee.

There were representatives from 35 Kentucky companies besides visitors from companies in Ohio, Indiana and Tennessee. The meeting was the most successful in the history of the association and the members went home satisfied with the work accomplished and praising Lexington for its hospitality. The annual meeting takes place the second Tuesday in October and will be held at Owensboro or Lancaster.
